**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 8, 10-12, 17, 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Huth et al. 5,049,383.
3. Huth et al. disclose biocides in claims 1 and 2, concentrations in claim 3, polymers in claims 8 and 9 and protective colloids in column 8, lines 28-56. Applicants' claims are not novel.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1-4, 6-13 and 15-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huth et al. 5,049,383, in view of Morpeth 5,364,874.

7. Huth et al. has been discussed already. Morpeth teaches 2-methyl-4, 5-trimethylene-4-isothiazolin-3-one in claim 1, adhesives and polymer emulsions in claim 8 and other biocides which can be blended with the composition shown in claims 1-8 of the reference, among them dimethyldidecylammonium chloride, in the paragraph overlapping columns 6 and 7. It would have been obvious to one having ordinary skill in the art, at the time the invention was made, to select cetyl pyridinium chloride or dimethyldidecylammonium chloride from a list of equivalents and to blend them with an isothiazolinone as recommended by Morpeth. The use as an adhesive is also shown by Morpeth and Huth et al. recites good adhesive bonding capacity in column 9, line 35, making the use of the biocides in an adhesive formulation obvious to a routineer. The use of a plasticizer in an adhesive is customary, thus obvious.

***Allowable Subject Matter***

8. Claims 5 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (703) 308-2460. The examiner can normally be reached on 7:00 a.m-5:30 p.m. Tuesday-Friday.
